

? The financing will allow MET6 to become a "relevant minority shareholder" of RP Global, according to a joint statement on Thursday. The transaction, consisting of a mix of equity and convertible bonds, will support RP Global's activities in seven markets -- Italy, Germany, France, Spain, Portugal, Poland and Croatia.

A platform with strong local teams on the ground in all its core Western and Eastern European markets: RP Global is a large-scale developer with 40 years of experience in the renewable energy sector. As a developer, operator and investor, the company focuses on solar PV, wind, hydrogen and storage.

RP Global is a leading developer, operator, and investor in the renewable energy sector with over 40 years of experience. The privately owned company has established strong local teams across its core markets in Western and Eastern Europe.

RP Global is a large-scale developer and operator with 40+ years of experience in the renewable energy sector. We develop, finance, construct, invest in and operate solar PV, wind and hydropower, as well as hydrogen and battery storage projects in the years ahead.

European renewables developer RP Global plans to build a 50-MW/65.6-MWp solar farm in southern Croatia, the ministry of economy and sustainable development of that country said after receiving the amended environmental impact assessment for the project.
