

Who makes a battery in Poland?

In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there. According to a McKinsey report, the Polish nation ranks second globally in battery production capacity, following China, with 73 GWh in 2022.

Who makes lithium-ion batteries in Poland?

Lithium-ion batteries already account for more than 2.4 per cent of all Polish exports. In addition to LG Energy Solutions, other leading battery companies such as Northvolt, Umicore, SK Innovation, Capchem, Guotai Huarong, BMZ and Mercedes-Benz Manufacturing Poland are also investing in our country.

What is the potential of the battery sector in Poland?

The potential of the battery sector in Poland and the CEE region. In 2022, global sales of electric cars reached 10.5 million units, an increase of 55 per cent compared to 2021.

Why is Poland becoming a magnet for battery factories?

Poland is rapidly becoming a magnet for investments in battery factories thanks to its skilled workforce and government programmes promoting electromobility. Which companies are driving this transformation and what is their impact on the industry?

Why is Poland a good place to build a battery?

According to Krzysztof Burda, president of the Polish Chamber of Electromobility Development (PIRE), Poland's strategic location makes it "an ideal hub for battery, components, and subassembly factories". In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there.

What role does Poland play in the battery supply chain?

According to the report, Poland plays a leading role in the battery supply chain, being the second largest producer worldwide. Lithium-ion batteries already account for more than 2.4 per cent of all Polish exports.
