

If you would like to know more about this entity, African Energy can meet your needs with bespoke consultancy. For more information contact: [email protected] or +44 (0)1424 721667. For a glossary or more information on methodology and ???

Energy & Telecom. With the ambition of offering innovative solutions in energy management, we have created products capable of controlling your energy consumption. Our multi-energy solutions, such as our electric, gas, and water meters, will help preserve the environment for future generations.

One of the key initiatives that SAGEMCOM has undertaken to reduce its carbon footprint is the implementation of a corporate energy program. The program aims to optimize the company's energy consumption by identifying areas where energy can be saved and implementing energy-efficient technologies.

Sagemcom offers multi-energy and end-to-end solutions to manage energy and control its consumption throughout the network. From the meter to the associated software solutions, Sagemcom puts all its know-how as a designer, integrator and manufacturer at the service of energy management.
