

Source: 8minutenergy Renewables LLC The company will continue to develop its pipeline of over 70 utility-scale projects. At the same time, it is using proprietary technologies and design optimisation tools to offer smart power plants with integrated storage capable of providing flexible, predictable output to the grid.

To reflect its expanded scope of advanced technologies in the renewable energy space, 8minute has rebranded to Avantus. As Avantus, the company continues to execute on its core development platform bringing one of the largest clean energy development pipelines in the country to life, while deploying the company's proprietary power plant

8minutenergy Renewables, J.P. Morgan Asset Management and an affiliate of Upper Bay Infrastructure Partners have entered into a joint venture that will provide equity capital for 8minutenergy's 10.7GW portfolio of utility PV and storage projects.
