The Critical Materials Monitor aims to improve understanding of supply chains essential for the energy transition, the transition to more sustainable energy. It offers insights into the critical ???

The IEA's flagship World Energy Outlook, published every year, is the most authoritative global source of energy analysis and projections. It identifies and explores the biggest trends in energy demand and supply, as well as what they mean for energy ???

The Global Energy Perspective 2024 is intended to serve as a fact base grounded in the best currently available data to help global stakeholders meet decarbonization goals. The report offers a detailed demand outlook for 68 sectors and 78 fuels across a 1.5° pathway, as set out in the Paris Agreement, as well as three bottom-up energy

The Critical Materials Monitor aims to improve understanding of supply chains essential for the energy transition, the transition to more sustainable energy. It offers insights into the critical minerals required, outlines the components of key technologies, and provides in-depth reserve, production, and trade analysis.
