Sol-Lucian is a Saint Lucia based Electric Solar Renewable Energy company that has developed a bold approach to reducing the cost of electric utility, through the provision of products and services that include installations of GRID-TIED and STAND-ALONE photovoltaic (PV) systems.

As more homes and businesses adopt solar power, the collective impact contributes to a broader movement towards environmental consciousness in St. Lucia. In conclusion, the advantages of installing solar PV systems in St. Lucia with Eco Carib extend far beyond individual homes and businesses.

On the 11 th April 2018, the St. Lucia Electricity Services Limited (LUCELEC) ??? the sole electric utility company on the island ??? completed the commissioning of the island's first utility-scale solar PV plant.

To maximize your solar PV system's energy output in Castries, Saint Lucia (Lat/Long 14.0128, -60.9993) throughout the year, you should tilt your panels at an angle of 13° South for fixed panel installations.

During November and December representatives of Sol-Lucian attended Energy Awareness Fairs in both the north and south of Saint Lucia to provide attendees with information on the products and services offered by the company, and how they can turn sunshine into cash!
