

STOREH Energy Storage Technologies Srl offers an innovative system for energy storage and on-demand production of hydrogen. HOD, Hydrogen On Demand, solves the problem of intermittence and non-programmability of renewable sources by making possible the seasonal storage of energy.

It is an innovative startup that offers a system of energy storage and on-demand production of hydrogen. HOD, Hydrogen On Demand, solves the problem of intermittency and non-programmability of renewable sources by making seasonal energy storage possible.

At STOREH, we envision a world powered by renewables. Lighting homes, powering businesses and recharging electric cars simply using wind, sun and water 24 hours a day, 7 days a week, 365 days a year. We develop and produce HOD Hydrogen On Demand, a technology that enable low-cost energy storage and green hydrogen on-demand production at any
