

How many solar companies are there in Santa Cruz?

But Santa Cruz, CA has 14 solar companies available on the EnergySage Marketplace alone--so how do you choose the best one? Ranking solar companies is our bread and butter. We screen every solar company before allowing them to join our platform to ensure they'll deliver top-notch installations.

What is Santa Cruz Solar?

Santa Cruz Solar is a company that specializes in solar system design and installation. They also repair systems from various Bay Area solar heating companies such as Kehoe Solar, Theorem Solar, Solar II, Loewen & Frech, Barnes Solar, Solar Connections, and Solar Works. For more information, call Santa Cruz Solar at (831) 685-2786.

How much does solar cost in Santa Cruz?

The average price per watt of solar power in Santa Cruz, CA is \$2.59/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$14,894 for a 8.21 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Is it expensive to replace a roof in Santa Cruz California?

Replacing a roof is never cheap and it's even more expensive after solar panels have been installed. This is an important consideration since an early assessment of your roof's condition can save you a lot of money in the long run. Looking for things to do in Santa Cruz California?
