

The energy storage tank covers peak loads, favors the control behavior of the combustion plant and enables the minimum operating time and filter availability to be achieved. Schmid AG energy solutions H?rnistrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73 info@schmid-energy .

Schmid AG energy solutions convinces with new touch panel. The PersonalTouch visio is a completely new development. In addition to a modern design and high user-friendliness, attention was paid to the use of the latest web technology. Schmid was the first company in the world to sell log firing systems with storage. Smiled at by competitors

Energy storage: 56,000 l. Silo: 350 m3 volume / 6,350 m3 annual consumption Discharge: Push floor discharge Schmid AG energy solutions H?rnistrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73 info@schmid-energy . Products

SCHMID ENERGY STORAGE SOLUTIONS

Schmid plants are planned, developed and produced in-house with the highest quality standards for energy-efficient heating solutions. Customer service With a seamless service network, exceptionally high spare parts availability and other innovations, we also succeed in setting new standards in after-sales.

A automatic ignition creates a larger time window for filling the boiler, from successful burning to unloading of the storage tank. Schmid AG energy solutions H?nlstrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73 info@schmid-energy .

With its wood and heat pump heating systems, Schmid AG, energy solutions accommodates everyone who Read more Schmid AG energy solutions H?nlstrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73 info@schmid-energy . Products to area of application

An important prerequisite for optimal combustion is the correct storage of the fuel; wood log should be well ventilated and stored in a dry place for approx. 2 - 3 years, depending on the thickness. Schmid AG energy solutions H?nlistrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73 info@schmid-energy .

The hydraulic moving floor discharge is ideal for discharging wood chips from larger storage facilities. Drive-on or non-drive-on push floors in proven design with hydraulically driven push rods sliding wear-free on special inserts. Schmid AG energy solutions H?nlistrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73. info@schmid

The SCHMID EverFlow technology epitomizes the pinnacle of energy storage, offering high-performance solutions that align with the principles of sustainability and environmental stewardship. The SCHMID is a responsible partner innovating for the benefit of all stakeholders with R&D geared to help customers achieve their CO₂ neutrality targets.

Either the buffer storage tank has reached the set state of charge or the higher-level control system blocks the firing -> as a rule, the release comes automatically as soon as heat is required again. Schmid AG energy solutions H?nlstrasse 12 PO Box 42 CH-8360 Eschlikon. 0041 (0)71 973 73 73. info@schmid-energy .
