Hello: I just received my order for a replacement power supply for a Seagate Backup Plus Hub 5 TB external hard drive. My drive still does not power up. Upon calling Seagate, I was told that this 2amp replacement would not work and that I would need a 3 amp charger for this drive - not the 2 amp charger that you advertise as a suitable replacement.

Thank you for contacting Seagate Support. I understand that you would like to get another cable for your Seagate Backup Plus Hub Desktop and I will be more than happy to assist you in this case. I looked in our database and I could find the cables that you need for your drive, please see below: Data Cable - USB 3.0 Micro B Power Supply - 12V 3A

What's in the box. In addition to the hard disk itself, the scope of delivery also includes a USB 3.0 Cable with micro-type B connector and a very clear user manual. The scope of delivery for most external hard drives ends here, but the Seagate Backup Plus HUB is also included Power Supplies at. actually belong external hard drives with a bulky power supply ???
