Today, on the occasion of the Summit for a New Global Financing Pact, which aims to build a new consensus for a more inclusive international financial system, Senegal and the international partners group (IPG) comprising France, Germany, the European Union, the United Kingdom and Canada are launching a Just Energy Transition Partnership (JETP) to ???

Second, the energy reality in Senegal is bleak and its future does not yet look favorable. Energy costs in Senegal are among the highest in the world [33]. Energy riots in 2009 and 2011 broke out in the greater Dakar area after prolonged and repeated power outages [34], [35]. Protests broke out again in 2019 in response to Senelec's 10 %
