

LS Eco Energy's Vietnam and Myanmar subsidiaries produce various power cables spanning low-, medium- and extra-high voltage, based on world-class technology of the parent company. We also produce busducts, a next-generation indoor wiring system, and SCR, which are used as raw materials for manufacturing various wires.

LS Eco Energy is Vietnam's No.1 cable maker. Based on our accumulated technology and capabilities, we will accelerate the preoccupation of solar power, on/offshore wind power markets in the ASEAN region and contribute to the establishment of global industrial infrastructure by expanding the high-speed communication market.

LS Eco Energy, a subsidiary of LS Cable & System, said Tuesday it posted record-high revenue in the third quarter, driven by strong export performance in its power and telecommunications ???

LS Cable & System Asia (CEO Sang-ho Lee) will be preparing for its second wave of growth momentum by pursuing new businesses in submarine cables and rare-earth elements. LS ???

LS Eco Energy, a subsidiary of LS Cable & System, said Tuesday it posted record-high revenue in the third quarter, driven by strong export performance in its power and telecommunications businesses. The company reported revenue of 223.4 billion won (\$156 million) for the July-September period, up 33 percent from a year earlier. Operating profit rose 14 percent to 12.5 ???

LS Eco Energy is the best cable maker in Vietnam, also the only one that can produce extra-high voltage cable. Based on our success in the Vietnamese market, we will establish ourselves as the No.1 cable maker in ASEAN in the future.

LS Cable & System Asia (CEO Sang-ho Lee) will be preparing for its second wave of growth momentum by pursuing new businesses in submarine cables and rare-earth elements. LS Cable & System Asia is also planning to change its name to LS Eco Energy ahead of its expansion into these new businesses.
