

Why choose Seychelles solar energy?

Local Seychelles experience Mahe, Praslin, La Digue and outer islands Certified by Seychelles Energy Commission Approved by PUC Technical staff qualified in solar energy & energy efficiency Quality renewable energy products Warranty & Certification Best price Optimal performance Best return on investment Solar Energy PV Systems

Who is energy solutions Seychelles?

Welcome to Energy Solutions Seychelles - Leading solar energy company in the Seychelles We supply and install high quality solar energy systems and solar hot water products in the Seychelles. Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Why Choose Us Most experienced

Who installs roof top solar photovoltaic PV systems in the Seychelles?

Sine 2012,ESShas been installing rooftop solar photovoltaic PV systems in the Seychelles. Therefore,we have experience with grid-tied roof top solar PV system. Also we are an approved installer by the Seychelles Energy Commission and Public Utility Corporation.

How do PV panels work in Seychelles?

The panels are arranged on the roof in an array and connected to an inverter. Energy Solutions Seychelles installs a range of PV panels from tired-one manufacturers and supply products to meet your project specifications and budget. Additionally,the efficiency of the panels can be further enhanced by using optimisers.

Who is ESS Seychelles?

Contact Us ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy. About Us FAQ About PV Products

How does a hybrid system work in Seychelles?

A hybrid system uses both the grid and batteries. Currently,Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits

your electricity bill at the end of each month.

Energy Solutions Seychelles can assist with financing solar PV systems or energy efficient appliances through the following schemes available in the Seychelles. For more information on any of the financial scheme below contact us.

PV systems are considered to be one of the safest methods of farming solar energy as it has no moving parts and therefore there is little need to maintain the system, with the only exception being to ensure your solar panels are free of dirt as this would slightly affect the output of the PV system.

Seychelles has received funding from an Indian government grant to support a programme to install PV systems on government buildings. Additional funding has been added to next year's budget to ensure the completion of the second phase.

# SEYCHELLES PANEL SOLAR ECONÃ³MICO

The Solar Farm has doubled the amount of energy produced from renewable energy in Seychelles, reduced the emission of greenhouse gases related to electricity produced from fossil fuel, and lowered the annual fuel consumption related to electricity production.
