Raine or Shine Alternative Energy Solutions, Wrexham. 153 likes ? 4 were here. Raine or Shine is a fully accredited MCS installer of the latest Solar Electricity (Photovoltaic) and Solar Hot Water

Big Shine Energy provides companies throughout the U.S. with solutions for their heating, ventilation, and air conditioning (HVAC). The first step in your HVAC project is to conduct an ASHRAE-level energy audit to determine your facility's needs. We can help you replace an outdated system to be more efficient or build one from the ground up.

Our solutions are designed to provide a comfortable and healthy indoor environment while ensuring optimal energy efficiency and cost-effectiveness. A well-designed and installed HVAC system can provide a range of benefits, including: Improved indoor air quality; Better temperature and humidity control; Lower energy bills

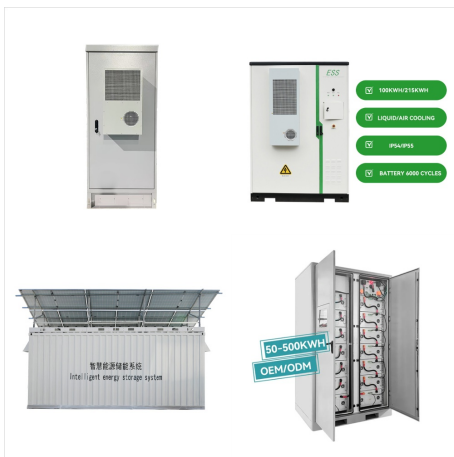

A photometric design involves the planning and analysis of lighting systems to ensure optimal illumination and visual comfort. This process considers factors such as light distribution, intensity, and color to achieve the desired lighting effects and enhance the visual appeal of a space.
