

Elektros (ELEK), an innovator in electric mobility, has announced the commencement of initial lithium aggregate shipments from its Sierra Leone mining site. The shipments are being transported from the Southern Sierra site to Bo city and are intended for further processing in the United States.

As part of efforts to address the electrification gap in the African continent, clean energy microgrids paired with battery storage have been rolled out as an affordable and reliable option. Since 2017, Systems Sunlight has been ???

MOPO is aiming to become a leading African energy provider through pay-per-use battery technology. With operational rental services already thriving in Nigeria, DRC, Sierra Leone, Liberia, Chad, and Uganda, backed by solid financial structures, contracts, and strategic partnerships, MOPO is poised for rapid and expansive growth.

As part of efforts to address the electrification gap in the African continent, clean energy microgrids paired with battery storage have been rolled out as an affordable and reliable option. Since 2017, Systems Sunlight has been engaged in strengthening energy infrastructure through Sierra Leone's Rural Renewable Energy Project, aiming to

As the cornerstone of advanced battery technology, lithium is essential for the EV revolution and grid-scale energy storage solutions. With data centers increasingly adopting lithium-based backup power and the rapid expansion of solar installations, the market is poised for explosive growth.

In the heart of Sierra Leone, where consistent access to electricity has long been a challenge, a groundbreaking renewable energy project is transforming the way critical infrastructure operates. Bo Government Hospital, a key healthcare facility in the southern province, is now powered by a cutting-edge solar energy and storage system

SiNergy SL Ltd. is an energy solutions provider focused on the design procurement installation and support of PV solar energy and battery backup solutions in Sierra Leone. As a locally developed entity we have over the years understood our environment and the specific requirements needed in deploying successful PV solutions.

Founded in 2019, Easy Solar - Power Solutions is a leading provider of solar energy solutions in Sierra Leone and Liberia. With over 700 kW of installed capacity, we are committed to providing world class solar and battery storage for schools, businesses, hospitals, farms and other high-impact organisations.
