

We are able to install solar power plants on all types of roof coverings, as well as install special solar modules instead of traditional tiles, resulting in significant savings in new construction or renovation of existing roofs. With a solar power plant for your home you can save energy costs.

Besides, solar panels can be mounted on asphalt shingles, sheet metal, tile and any other type of substrate, both ideal for flat and sloped roofs. However, before your installer sets up your solar panels on your home's roof, they would assess first the quality and current condition of your roof to avoid future problems.

RCD Solar is the premier rural, commercial and domestic renewable energy solutions provider in Sierra Leone. We cater for sustainable energy supply systems or as a Backup system for Institutions, Commercial enterprises, Rural communities and Domestic or home setups
