EcoLabs Centre of Innovation for Energy is jointly established by Nanyang Technological University, Enterprise Singapore, and the Sustainable Energy Association of Singapore. EcoLabs is an innovation cluster focused on building and accelerating deep-tech energy innovation capabilities in Singapore to support the nation's future energy transition.

The demonstration is located offshore near the Raffles Lighthouse on Pulau Satumu, about 14 kilometres south of the main island of Singapore. The key objective of the demonstration is to supply clean tidal energy to the Raffles Lighthouse to replace diesel with clean energy and the reduction of the carbon footprint, through the decarbonisation of port waters and islands.

The most commercially viable form of hydrogen energy generators are Combined Cycle Gas Turbines which burn a combination of hydrogen fuel and natural gas, with hydrogen fuel making up between 30 to 50 per cent of the fuel by volume. In other words, current hydrogen energy technology is still not a viable solution for meeting Singapore's

Our approach to driving the energy transition is focused on expanding the scope of both upstream and downstream renewable energy solutions. Our vision for a green-energy-driven future embraces a whole-of-life philosophy where we solve critical gaps between system integration, operations & maintenance, and end-of-life treatment in the prevailing renewable energy ???

Kitty Bu, Vice President, Southeast Asia, I am now working to create innovative financing approaches to unlock the capital needed to scale energy solutions that can ensure access to affordable clean energy for all. Session/Event: Closing Plenary: Providing a Just and Inclusive Clean Energy Transition for All

BU Energy Solutions maintain nearly two thousand sub-station battery systems spread around the country, carrying out battery tests and exchanging batteries as required. Our long history of battery maintenance gives us not only extensive knowledge in all the problematics of battery equipment but also in the expertise of planning and executing

The history of MAN Energy Solutions Singapore goes back to the year 1977. Our main offices and workshop are located at 29 Tuas Avenue 2, where about 200 employees are working.
