

Blessed with abundant sunlight year-round, solar energy is considered the most viable renewable energy source available in Singapore. Singapore is also one of the most solar-dense cities in the world, with 1.17 gigawatt-peak (GWp) of solar deployment as of the fourth quarter of 2023 ??? more than halfway to our target of 2 GWp by 2030.

To increase the impact of its technical cooperation as well as to promote major issues related to industrial development, UNIDO has joined forces with other organizations and counterparts from the international community, as well as with actors from the private sector, including non-governmental organizations, and the Academia. Partners in the UN system

Empowering Energy Evolution in Asia through our Singapore office. Since 2010, Uniper and its predecessor companies are coordinating our activities in the Asia Pacific region from our Singapore office. Skip to main content Operating as part of global energy company Uniper, we deliver flexible solutions that help organizations across Asia

The project will target EE through the Energy Management Systems (EnMS) and EE practices in small and medium-sized enterprises in the country and is part of the Sustainable Energy Transition Programme (SEPT) sponsored by the European Union (EU). The project will be implemented by UNIDO and the MoIT for five years, from 2023 to 2027.

Three workshops organized by the United Nations Framework Convention on Climate Change (UNFCCC) and the UN Industrial Development Organization (UNIDO) in Bonn, Singapore and Montevideo have promoted a ???

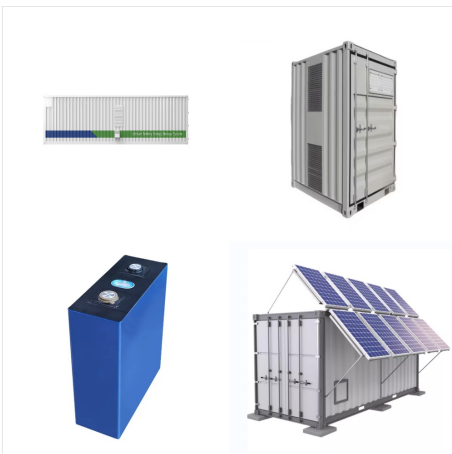

Xian Li is a Section Chief of the Bureau of Economy of China - Singapore Tianjin Eco - City. As a project leader, she successfully made China - Singapore Tianjin Eco - City receive the approval of the National New Industrial Demonstration Zone. She is focusing on economic affairs cooperation and on the analysis of energy saving and low carbon.

Rwanda - Energy access for rural communities. UNIDO, in cooperation with the Rwanda Ministry of Infrastructure, has implemented a project to promote renewable-based energy development for productive uses. The aim of the project is to contribute to poverty alleviation and economic growth by providing access to affordable modern energy in rural

VIENNA, 6 July 2021 ??? Within the framework of the 2021 Vienna Energy Forum (VEF), the United Nations Industrial Development Organization (UNIDO) launched the Global Partnership for Hydrogen Application in Industry to promote its application at global level as an innovative technology critical to decarbonize industry, especially in hard-to-abate sectors.

VIENNA, 7 July 2021 ??? The launch and inauguration of the International Hydrogen Energy Centre (IHEC), a key knowledge partner for the UNIDO Global Programme for Green Hydrogen in Industry, was held virtually.

Union Energy Singapore specializes in electricity retail, solar panel installation, EV charger solutions, and smart energy systems. Your trusted partner for green energy innovation and sustainable power solutions

The CEM is an international clean energy leadership platform, a convening platform, an action platform, and an acceleration platform. For further information please contact: Mariana Castaño Cano, focal point for media - email Tel/Whatsapp: + 33 636829397. Rana Ghoneim, Chief, Energy Systems and Infrastructure Division, UNIDO - email

Winner Energy and Environmental category. UNIDO global call, Innovative Ideas and Technologies vs. COVID-19 and beyond, 2020. APAC 25 companies. The cleantech Group, 2020. He has been embedded in the Singapore Innovation ecosystem since 2008, and worked in Asia since 2005.

The UNIDO hydrogen team was pleased to be a supporting partner of the 14th Dii Desert Energy Leadership Summit, joining hands with leaders from the public and private sectors to drive net-zero industrial development and an inclusive hydrogen transition. UNIDO's Managing Director, Gunther Beger and Petra Schwager, Chief of the Climate and Technology ???

Ten passionate project developers, 88 investors and financing asks of \$31 million in total - PFAN Climate and Clean Energy Investment Forums are always exciting and this month's event in Singapore

Turning Green Lights On. Sun, wind, water and biofuels: renewable energies are not only environmental-friendly, they can also boost the economy in developing countries by optimizing and saving on industrial production, improving business activities, social welfare and every day's life in rural areas - all of this while saving the planet!

Dubai, UAE, December 5, 2023 ??? Today, at COP28 a suite of flagship initiatives has been launched to accelerate commercialisation of hydrogen to keep the 1.5 Degrees target within reach and to unlock the socio-economic benefits of cross-border value chains for hydrogen and its derivatives, featuring: Intergovernmental Declaration of Intent on Mutual Recognition of ???

Programme (GCIP), supported by the Global Environment Facility (GEF). UNIDO would like to express its gratitude to the Cleantech Group for its key role in developing the present document in alignment with the objectives of GCIP. UNIDO and the Cleantech Group extend their heartfelt appreciation to all individuals and

energy recovery device for SWRO plants featuring high efficiency, low pulsation, low noise, extremely low mixing/overflow rate, with wide Address 50 Raffles Place Singapore, Land Tower Level 30, Singapore, 048623 Telephone +65-9062-7595 Email DeROs@dmw.jp DMW CORPORATION HEADQUARTERS

At UNIDO Innovation Lab, we believe that innovation is the key to addressing complex global challenges and achieving sustainable development goals. We work at the intersection of data analytics, design, technology, entrepreneurship, and social impact to drive positive change and create a better future for all.

, UNIDO has been supporting the establishment of regional sustainable energy centers across the Global South to accelerate the shift to renewable energy and improve energy efficiency. These 10 centers, which cover 120 countries including 40 Least Developed Countries (LDCs) and 35 Small Island Developing States (SIDS), provide technical guidance to ???

The following countries are observers to the Alliance: Mexico, and Singapore. Regional Networks. GACERE works in close collaboration with the regional circular economy networks, including the African Circular Economy Alliance and the Circular Economy Coalition for Latin America and the Caribbean. Strategic Partners

Climate, Energy Transition, Green Hydrogen, Hydropower; Hydro-environmental Engineering; ? PhD majoring in hydro-environmental engineering; Keen on climate change, biodiversity conservation and water issues ? Berufserfahrung: UNIDO ? Ausbildung: Tsinghua University ?
