Introduction This solar ac pump system is for irrigation and local people living. Before installing this VFD solar System, end users were using diesel generator to power the solar ac pump to get water, now they choose solar ac pump system as

Much like the amount of solar PV, rated horsepower (HP) of pumps can be misleading. For a solar pump, if HP is stated, this usually refers to the maximum solar panel which can be used with the system. If the pump is inefficient and simply using more energy, it doesn't always mean you'll get more flow. Always check both HP and stated flowrates.

Solar irrigation can also have a positive impact on gender equality. Women in Africa and Asia make up 50% of the agricultural labor force, yet they have less access to credit and formal banking, which can be improved by credit history borne from payments for pay-as-you-go solar water pumps. Savings in time and labor were also seen in irrigation projects by the ???

De plus, l'énergie solaire est gratuite et en abondance pendant la saison sèche, lorsque les cultures n'ont pas besoin de plus d'eau. Les agriculteurs qui exploitent efficacement cette énergie gratuite en pompant de l'eau pour les champs et dans des réservoirs surélevés pendant la journée, alors que le soleil est le plus brillant, peuvent récolter d'énormes avantages.
