

What are people saying about solar installation services in Dallas?

What are people saying about solar installation services in Dallas, TX? "After using good faith energy for some EVSE installs, we moved to what we plan to be our forever home. We decided to have a full solar and backup battery system installed with our evse at the new place. Good faith energy handled the entire process greatly.

Is Blue Sky Solar a local company?

Despite the Springfield,Oregon storefront,Blue Sky Solar is not a local company. They are based in Utah and contract out for everything,not always to Oregon companies. We began the process for panels and battery storage in early March of 2022. It is now May of 2023. All seemed wonderful at first. It became one thing after another.

How do I choose a solar installation company for my Dallas home?

When choosing a solar installation company to service your Dallas home, there are several important things to keep in mind. The median Dallas home size is 2,305 square feet; this factor will drive what size solar system is best for your home.

How do I choose a solar installation company?

Determining which type of solar panels will best suit your lifestyle is an important part of choosing an installation company. For residential use, there are typically three solar panel options: monocrystalline, polycrystalline and thin-film. A fourth option, solar shingles, are newer and less cost-effective.
