

Which replacement power supply do you purchase for PRO-HD model? My view is generally the wall type AC-DC transformers are problematic or have limited lifespan for Slingbox ProHD. I had been through a couple, and last time just opted for an industrial type. Got a MEAN WELL GST25B05-P1J.

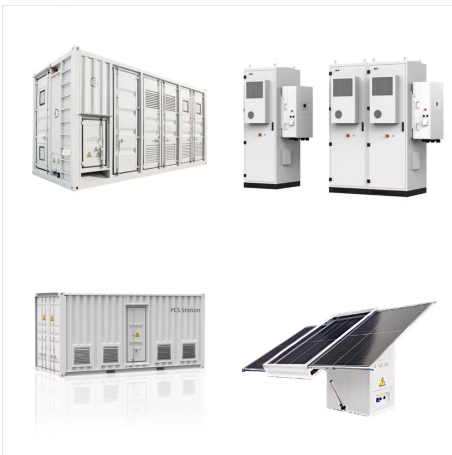

The symptoms were the "horseshoe" light turned on immediately and stayed on constantly, nothing was blinking and the slingbox was unresponsive (not even to ICMP). (I tested it with Slingbox SOLO as well, this time only the power LED turned on, but the light was much dimmer than with a working power supply, and the box was unresponsive)

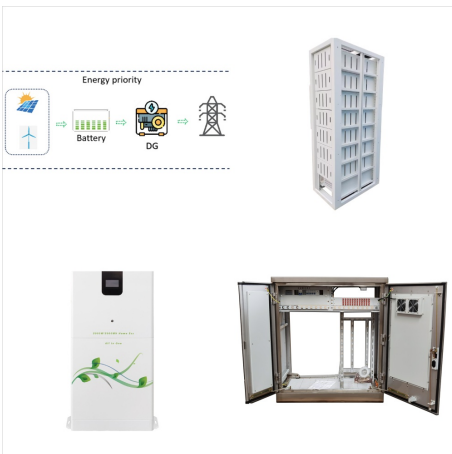

5 Volt Mains AC/DC Power Supply Which Is Compatible With 5 Volt Power Supply Adapter UK Plug for Sling Media Slingbox SOLO Compatible SB260 100 Our Power Adapters come with CE/FCC/RoHS certification built-in safety protections and IC chip copper wires and a ferrite choke bead to promote maximum signal stability and strength.

If I recall correctly, when Slingbox power supplies were dying frequently, it was because the PSU was rated as what the slingbox needed, but they were not good and provided substandard power. My advice would be to find a similar PSU 12V/2A off Amazon. The trick will be matching the Jack for the slingbox.

The package included the bare essentials: the SlingBox Solo, a power supply, composite video cables, an Ethernet cable, and an IR dongle. The instructions walked me through wiring the SlingBox with Composite video cables from my Cable/Satellite box or DVR, draping the IR dongle over my TiVo, and wiring an Ethernet cable to my D-Link router.

The Slingbox SOLO makes it easy for you to watch and control your favorite TV source from anywhere in the world on a Windows PC, Mac, mobile phone or tablet. Enjoy your DVR, digital cable, satellite receiver or DVD player in standard-definition quality.

My Slingbox Solo keeps resetting itself after a few seconds of slinging. Initially there is a connection (and a decent one too) and I can view and watch a TV channel and then it freezes and loses connection. Then I found the next problem is my Solo power supply bad (output it with a substitute (5V/2A) fixed it. So check your power supply

Slingbox Solo Power Adapter ?6.99. 5v Slingbox SB300-110 quality power supply charger cable adaptor Slingbox Sling Box SOLO 5v dc replacement power supply adapter charger cable Can someone help diagnose thisMy slingbox Solo only has a power light. I tried to reset it, but nothing happens. I bought a new AC adapter off amazon and it's.
