

How much solar power does Slovakia have in 2023?

In 2023 Slovakia had 840 MW of installed solar power capacity. Biomass provides around 4% of electricity generation capacity. There is hydropower potential in Váh and Orava rivers (before Starý Hrad, and after Kralovianski Meander, Oravka tunnel), with power plants over 30 MW as extremely profitable (for low cost/installed MW).

Who is solar company?

Today Solar Company consists of more than 150 employees, providing international clients a full scope of PV installation services. For more than 13 years we have been a reliable partner for large-scale photovoltaic projects in Europe, Africa, Indonesia and Vietnam, with over 350 finished projects with a total capacity of more than 1300 Megawatts.

What services does solar company offer?

Scope of services: Complete mechanical installation, including pulling of DC cables. Solar Company is an independent solar PV mounting company, with a proven track record of over 300 projects all over the world.

Thanks to our long-term experience with solar power plants, we will provide you a tailor-made solution with the best possible return on investment.

WEON group, a.s. Address: Mraziarenská 6, 821 08
Bratislava, Slovakia phone: + 421 2 5222 1111

Our company is a leading player in the field of photovoltaics in Slovakia. We are proud to bring sustainable and renewable energy to homes and businesses across Slovakia. Our mission is to provide our customers with access to clean energy through our top-notch PV systems. Our company specializes in the installation of photovoltaic panels and

Rails attached to the racks support the rows of solar panels. The solar modules are mounted, connected and tested by our engineers to ensure all systems operate accordingly. The current power output of one module ranges from 370 watts to 540 watts. In a day we are able to install enough solar panels to generate 1MW of power.
