

Smappee's real smart charging relies on sophisticated data exchange systems that are automated and integrated with AI to ensure the most economical, well-timed, driver-oriented and infrastructure-friendly solution.. Smappee's real smart charging makes it hands-free to always charge at the best rates, with maximum solar energy and avoiding exorbitant capacity rates, ???

Smart energy monitoring manufacturer Smappee has debuted its new Modbus energy meter. Tailored for industrial and commercial sites, Smappee's Modbus energy meter offers accurate submetering and energy metering functionalities. The data is transferred via Modbus RTU (RS-485) to any 3rd party gateway, data logger or scada system

Advanced energy intelligence sets us apart. Smappee's advanced energy management system, the Infinity, integrates with our charging infrastructure and drives smart functions. This not only helps your charging stations charge smarter but also creates smart insights into the energy consumption of your building. So, you will have all you need to make wise energy choices and ???

Advanced energy intelligence sets us apart. Snappee's advanced energy management system, the Infinity, integrates with our charging infrastructure and drives smart functions. This not only helps your charging stations charge ???

Snappee Infinity is a truly comprehensive energy management system that gives clients the insights, data and tools to manage their energy consumption and optimize their use of renewable energy. It allows you to add solar, gas and water to get a detailed overview of all energy flows and manage them to take full advantage of all self-generated

The Snappee Infinity system allows users to further optimise their energy consumption. The perfectly thought-out modularity ensures you can always adapt energy management to your own needs. Communication is the key word here. In this blog post, we will tell you which cloud communication modules are available and what their possibilities are.

Choose Smappee CPO or e-MSP services for a simple and convenient all-in-one payment solution. Smappee CPO services handle payment and billing for charging sessions to your charging stations. EV riders can charge with their charge cards connected to Smappee's or a third-party e-MSP. Smappee will then periodically reimburse you for the costs.

Solar electricity and energy efficiency are crucial components of our planet's sustainable energy future. To pave the way for policy and other organizations WWF launched the WWF Upfront program in 2016. This three-phased approach turns WWF's operations more energy efficient and powers them with renewable energy, one office at a time. At the base of ???

Der Energiemarkt befindet sich im Umbruch und verlagert den Wert vom Verkauf von Kilowattstunden hin zu bedarfsgerechten Energiedienstleistungen. Smappee liefert die Plattform, um rechtzeitig auf diese Entwicklungen zu reagieren. Von Submetering in Versorgungsqualit?t bis hin zu Energiehandel in Echtzeit und Energie als Dienstleistung (Energy-as-a-Service). Mit ???

Smappee Energy ??? Installation manual - English
7 Make sure there's a stable Wi-Fi connection at the location of installation. Smappee Energy is only compatible with 2.4 GHz Wi-Fi networks. Make sure the Wi-Fi network is online when powering on the Smappee monitor. The arrow indicated on the CT (K > L) must point in the

This article will give a brief overview of how to view and analyse your energy consumption in the Smappee dashboard. The article will briefly go over the live values, our graphs and table and how to configure them. Live values.

Smappee-laadpalen groeien slim mee met de behoeften van je bedrijf. Zo hou je je energieverbruik onder controle en laad je je wagenpark altijd tegen de beste prijs. Zakelijke laadoplossingen De slimste laadpaal voor elke situatie. Thuis. Fleet. Logistiek. Retail & Parking. Bouw & Architecten.

Want to learn more about what Smappee can do for your home or business? Let's get in touch with the Smappee team. Let us contact you. Business charger Fast charger Services Home charger Energy management Smartstop Public charging Become a host Become installer

Real-time home energy monitoring system;
Attaches to your breaker panel, showing individual appliance energy consumption; Monitors your solar power, showing how much your home is producing;
Controls your smart things ???

Export and save energy data. Use the Snappee Dashboard as your primary energy data gathering tool. Export your energy data as an Excel or CSV file and analyse it in the program of your choice or save it for future reference on a hard drive, USB, in the cloud, etc. 7. Monitor power quality.

Snappee helps you drive a better future with smart charging and energy management solutions. For home and for business. Become a trusted Snappee installer. Be ahead of the energy curve and expand your product range. With the professional training of the Snappee Academy, it is easy to become a highly rated Snappee Certified Installer.

Integrating Snappee's advanced energy IoT technology into your products enhances their capabilities and appeal to your customers. Snappee offers several options: taking advantage of traditional submetering via the installation of clamps or data measurement modules in the fusebox and using our patented load disaggregation technology for

The Smappee App places smart charging and energy management firmly in your hands. It provides details about the cost of your energy usage. Make the most of tracking, managing and optimizing your energy consumption and have everything at your fingertips to charge and use energy in the most cost-effective way.

Smappee EV charging stations ensure cost-efficient charging of your car at home, work or on the road. Up to 6x cheaper. But that's not all. Smappee analyzes your consumption of electricity, solar energy, water and gas in real time making it easy for you ???

For charging stations for businesses, you will need to buy the Smappee Infinity smart energy management system to enable dynamic load-balancing for multiple charging stations. The Smappee App monitors your power consumption. The Smappee App allows you to use dynamic rates. You can activate different charging programs in the app and choose

Maximize efficiency and cut costs with the advanced energy management features of the Smappee Infinity. Residential and commercial voltage monitoring and dynamic load balancing between solar, EV & other appliances.

For charging stations for businesses, you will need to buy the Smappee Infinity smart energy management system to enable dynamic load-balancing for multiple charging stations. The Smappee App monitors your power consumption. The ???

One tool for all energy flows. Africa is struggling with its energy supply. "Due to the lack of electricity and water as well as regular load shedding, home-owners and companies need to deal with their energy as efficiently as possible", says Stefan Grosjean, CEO at Smappee. "It is the right time to introduce the Smappee offering in Africa.
