Solar batteries store energy produced by your solar panels so you can use that energy later (for example, when the sun has gone down). So when you install a battery as part of your system, you can store the excess energy it produces at your home, rather than sending it back to the grid. Smart Energy Group Pty Ltd 83 615 998 377 Smart Energy

Energy Smart Solar is a local company that's been operating with an impeccable reputation since 2015. Over the years, we've seen other solar companies come into our region, and many of them fail because they don't do their own work (sales companies), or lack the experience to adhere to the strict South Florida building codes.

Smart Energy | Vancouver focuses on timely actions for decarbonizing communities and ultimately achieving net zero targets. Join the innovators who are changing the world, meet with experts who are leading their organizations through energy transitions and see the technologies that will clear the pathway to net-zero.
