

Who owns smarter grid solutions?

Smarter Grid Solutions completed the sale of the company to Mitsubishi Electric Corporation (MELCO) and Mitsubishi Electric Power Products Incorporated (MEPPI) in August 2021.

Where is smarter grid solutions (SGS) located?

Upon close, SGS will maintain operations in Glasgow, Scotland and will report to Mitsubishi Electric Corporation's subsidiary, Mitsubishi Electric Power Products, Inc. Smarter Grid Solutions (SGS) is a UK-based energy management enterprise software company that operates internationally with offices in Glasgow, Scotland, and New York City.

What is meppi & smarter grid solutions?

Together, MEPPI and Smarter Grid Solutions will provide combined distributed energy resources management software and grid control products to enable electric utilities to respond to energy system and maximize the performance from their electric grids.

Where can I find more information about smartgrid solutions?

For more information, visit Headquartered in Warrendale, Pennsylvania, Mitsubishi Electric Power Products, Inc. (MEPPI) is a U.S. affiliate of Mitsubishi Electric Corporation serving the North American power systems, data center, rail transportation, and large visual display markets.

To do this, Springs Utilities is teaming up with NREL to use their Smarter Grid Solutions Strata Grid technology to test different scenarios to help Springs Utilities assess scenarios of high demand on the grid. Brett Jackson, the microgrid project manager at Springs Utilities, is excited about the collaboration.

Our R&D laboratories design, develop, test and release highly flexible utility-grade software products with a wide range of functional and non-functional options, complete with an extensive integration environment developed from a decade of DER integration experience to create the very best solutions for grid and market optimization.

Smarter Grid Solutions Enterprise DERMS Software Provider. Our whitepapers are created by our business leaders, consultants, and engineering experts to enable our customers and industry colleagues to gain vital insights and hear our opinions and experiences on key industry topics including Flexibility Markets and Distributed Energy Resource Management Systems.

Our Flexibility Services Management solutions are based on our Strata Grid product, which connects DER to grid operations to deliver highly localized demand response and dependable load relief. The core product features real-time grid monitoring and control, wide-area multi-site DER management and close integration to utility systems and processes.

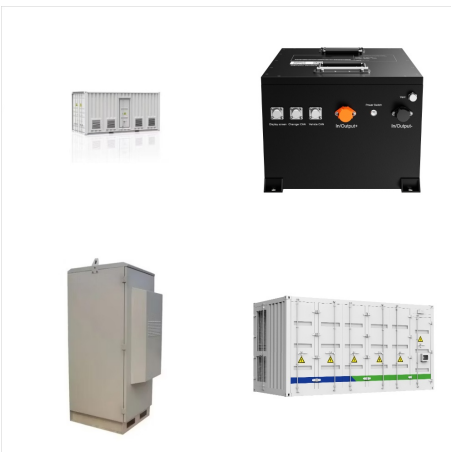

Using Strata Grid, Avangrid introduced flexible interconnection methods demonstrated and proven in the UK. Customer interconnection agreements were amended to incorporate the fast-acting, autonomous control methods used by Strata Grid to minimise curtailment actions.
