

Smartflower es la única solución solar del mundo que utiliza un diseño escultural "todo en uno" que, de forma inteligente, produce energía limpia y sostenible para su vivienda, su coche o su empresa

SmartFlower is an all-in-one residential solar system that's easily installed by trained professionals (3-4 hours), offers a small footprint (approximately 5 feet square), cleans itself of dirt, dust and debris twice a day, is fully automated and basically maintenance-free.

Smartflower stands out in the solar energy market with its distinctive design, blending functionality with artistic flair. This innovative product features a large, flower-like structure made of specialized solar panels that unfold like petals at dawn, follow the sun's path throughout the day for optimal energy absorption, and then close

Smartflower es la única solución solar del mundo que utiliza un diseño escultural "todo en uno" que, de forma inteligente, produce energía limpia y sostenible para su vivienda, su coche o su ???

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This "smart" solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels .

La energía solar ha ido ganando popularidad en las últimas décadas como una de las fuentes de energía más limpias, inspirando la generación de tecnología de vanguardia. Uno de los ejemplos es la llamada Smartflower, un dispositivo que capta energía de forma inteligente buscando el Sol.

In a world filled with countless rectangular solar panels, Smartflower is a rare, novel solar product. Part energy system and part industrial art installation, it's essentially a huge flower

Smartflower offers a unique and innovative approach to solar energy, combining high efficiency with striking design. Its dual-axis tracking system and self-cleaning panels make it a powerful and low-maintenance option for solar energy generation.

The SmartFlower is a ground-mounted solar panel system designed to resemble and function like a sunflower. Its unique design???a form of biomimicry ???allows it to track the sun's movement throughout the day, optimizing energy production.
