

What is the Sol system?

The Sol System (pronounced SOLE Sis-TEM), also known as the Terran System or the Solar System, is the home star system of Mankind and the principal seat of the Imperium of Man in the galaxy. The system is named after its sun, Sol, and lies at the direct astrocartographic centre of the Segmentum Solar.

Who controls the Sol system?

The Sol System is home to the governing bodies of the Imperium of Man, including the High Lords of Terra, the Fabricator-General of Mars, and the Emperor Himself. The Sol System, and the entirety of the Sector Solar, is guarded by Battlefleet Solar, the largest and most potent battlefleet of the Imperial Navy.

What happened to the Sol system?

Salvation only came with the coming of the Emperor, who unified Terra, Mars, and then the entire Sol System into the fledgling Imperium during the Unification Wars and Great Crusade. During the subsequent Horus Heresy, the Sol System was the site of bitter fighting between loyalists and traitors during the Schism of Mars and Solar War.

How many planets are in the Sol system?

The Sol System is part of the Sub-sector Solar and Sector Solar, respectively. Its primary planets include Terra and Mars, the twin capital worlds of the Imperium. There are a total of eight major planets and many dwarf planets in the Sol System, some of which are also orbited by heavily-settled moons, such as Luna and Titan.

What celestial objects are in the Sol system?

Elysian Gate - One of the two stable Warp routes into the Sol System built during the Dark Age of Technology. Khthonic Gate - One of the two stable Warp routes into the Sol System built during the Dark Age of Technology. Other celestial objects in the Sol System include the Oort Cloud, The Comet and Artefact 9-Kappa-Mu.

When did humans colonize the Sol system?

The birthplace of humanity on the planet Terra, the Sol System was fully colonized by humans by M15. During the Dark Age of Technology, humanity expanded across the stars thanks to the invention of Warp Drives and Navigators, and in this period the Sol System was dominated by the empires of Terra and Mars.

which coexisted peacefully.

Someone asked me to make this mod long ago, a simple 40K equivalent Sol system that could be played without the attendant overhaul elements of other 40K mods. When I finally got back in the mood for modding I looked around and, to my surprise, discovered still no one appeared to have gotten around to it.

After the formation of the Imperium, Venus would play host to a wide variety of luxury resort orbitals, all intended to help the elite of the Sol System find respite and relaxation. Jupiter (Gas Giant Mining World) - Jupiter is a massive gas giant and the fifth planet of the Sol System.

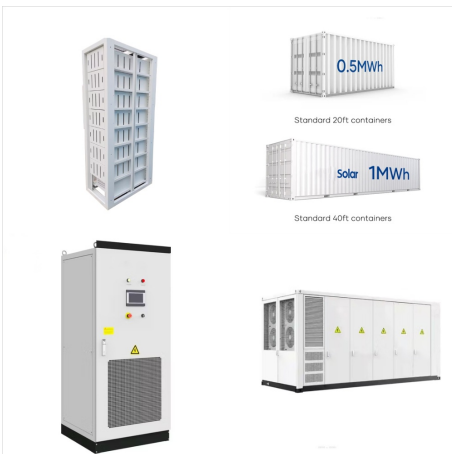

Sector Solar is a Sector of the Imperium. The most important single Sector of mankind, it is home to Terra, the Imperial capital and birthplace of mankind. The Solar Sector is guarded by Battlefleet Solar, the mightiest Battlefleet of the Imperial Navy. Known subsectors. Sub-Sector Solar a?? contains the worlds of the Sol System; Related articles

The Sector Solar, also called Sol Sector, (pronounced SOLE) is a sector of Imperial space within the Segmentum Solar. The Sector Solar is the very heart of the Imperium of Man and the oldest sector of space within its demesne. Terra, Luna, and Mars are all located in the Sector Solar, as was Cthonia, the ancient homeworld of both Horus and the Sons of Horus Legion. The Sector a?|

So I've been wondering what we know about the various planets of the Sol System during the Great Crusade and what they are like at the current point of 40k. I remember hearing something about scavenger clans operating off Mercury and the Orbital stations around Venus being home to a number of luxury facilities.

Auch im Zeitalter des Dunklen Imperiums ist das Sol-System weiterhin das leuchtende, schlagende Herz des Imperiums und des Segmentum Solar sowie eine der bestverteidigten Regionen der Galaxis. Dennoch wird das System so sehr von Feinden bedrängt, wie niemals zuvor. 11. Quellen. 1: White Dwarf, deutsch, 99; 2: Grey Knights (Roman)

Overview. The Solar Watch (also known as the Castellans of the Blessed Worlds) have sworn binding oaths to keep guard over the Sol System and see themselves as the first true line of defence for the Imperial Palace nsisting of several Shield Companies of varying strength, the Solar Watch constantly patrol routes between the worlds and void structures of a?|

The Battle of Pluto was a battle during the Horus Heresy was the earliest major engagement of the Solar War.. Overview. As part of Horus's drive towards Terra, the traitorous Alpha Legion was charged by the Warmaster with plunging the Sol System into chaos in preparation for his arrival. The system was heavily defended by the Imperial Fists Legion led a?|

The Sol System isn't handling thousands of human-sized star busters that can just fly through space and regenerate. And that's ignoring how the Big Ghetto Star is basically a technological Tyranid, eating planets and producing more Metal Coolers from what it eats;

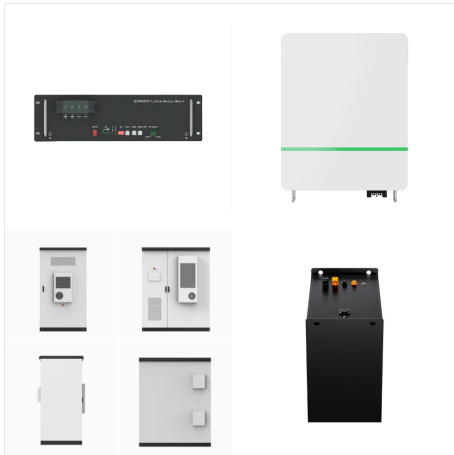

Artefact 9-Kappa-Mu is a mysterious relic of the Sol System that orbits around the sun between Terra and Venus. Having been seen orbiting the sun even in the earliest Sol System stellar charts, its name was given by the Mechanicum of Mars. A geodesic sphere of black metal 30km in diameter, it was marked by honeycombed passages and catacombs.

Special Edition Each print is individually hand-numbered and supplied with a certificate of authenticity. There are only 250 of each available making them highly collectable. The Oort Cloud, also known as the Opik-Oort Cloud, is a region of the Sol System, which contains dwarf planets, orphaned moons and long-period comets.. History. The Oort Cloud only receives weak light from Sol's sun and was once home to Xenos creatures, until the region was cleansed by the First Legion, during the early days of the Great Crusade. This occurred at a?

History. During the Age of Strife, Jupiter's moons became occupied by cruel Xenos overlords which enslaved the human inhabitants. These moons were not liberated from alien control until the coming of the Emperor in the early days of the Great Crusade. The Human Jovian Void Clans were utilized by the Emperor during the Great Crusade. During the Great Crusade a?|

Sedna was a planetoid or planet-sized object located in the outer reaches of the Sol System that was controlled by an unknown xenos species dedicated to war. It was later described by Imperial scholars as a "false world" and a "nemesis world." In one of the first campaigns of the Great Crusade in 803.M30, remembered as the "Sedna Campaign," it was assaulted by an Imperial a?|

Here in a very unique style of art is a map of the Sol System in the 41st millennium; as you can see its by far one of the finer maps of our Solar system in sci-fi especially the style of art in itself, and the fact that it makes note of a number of the Dwarf Planets too is amazing, well Pluto 40k hasn't forgotten you are a planet and part of

As the center of the Imperium, the Sol System sports the heaviest known defenses in the Galaxy. At the very edge of the System near the Mandeville Point are arrays of Star Forts garrisoned by Regiments of the Imperial Guard. The rest of the outer System is densely laced with thousand-mile-wide minefields, Imperial Navy patrol monitors, and enormous Hunter Servitors.

The great gas giant of Jupiter is a major Forge World of the Adeptus Mechanicus and the fifth world of the Sol System in the Segmentum Solar. Jupiter is the site of the massive manufactoria and starship construction facilities of the Mechanicus' ancient orbital Jovian Shipyards, which date back at least to the time of Old Night. Jupiter is a gas giant orbited by a complex web of a?

In one corner is the entirety of the 40k Solar System, all main forces and fleets it has. As well two full functioning Agri Worlds within 100 lightyears distance. This is post Guilliman taking over too and assembling his crusade. In the other corner is Macross own Solar System with all forces and fleets. As well Planet Eden and its resources

Arcadian Leontus is the current Lord Commander Solar of the Astra Militarum, the supreme commander of all Astra Militarum forces in the Segmentum Solar, the very heart of the Imperium. His rank is a supreme honour afforded only to those capable of bearing the terrible burdens that come with it. Leontus is an exemplar of unaugmented Humanity, a polyhistor, martial tactician a?|
