

Axian Energy, a subsidiary of Madagascar-headquartered Pan-African business group Axian, announced on Tuesday that it has closed \$84 million in financing for a solar photovoltaic (PV) and battery energy storage system (BESS) project in southern Senegal.

The West African Development Bank (BOAD) has approved a US\$24 million loan for a solar and storage project in Senegal with a 15MW/45MWh battery energy storage system (BESS). The loan totalling 15 years.

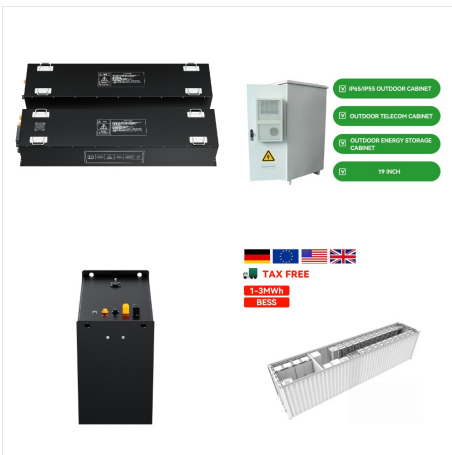

The project will provide clean, reliable energy for 235,000 people in Senegal. Largest photovoltaic with added battery energy storage systems (BESS) project in West Africa, accelerating the uptake of critical battery technology in the region. The investment supports Senegal's drive to reach 40% of renewable energy capacity by 2030.

The West African Development Bank (BOAD) has approved a US\$24 million loan for a solar and storage project in Senegal with a 15MW/45MWh battery energy storage system (BESS). The loan totalling 15 billion West African Francs (US\$24 million) was approved last month (20 September) by the board of the BOAD (Banque Ouest-Africaine de ???)

Juwi says it will construct a \$33.2 million solar-plus-storage project in Senegal, integrating a 20 MW solar plant with 11 MWh of battery storage. The system will meet 20% of the energy

The 20 MWp solar and 11 MWh battery project will provide clean energy to meet 20% of the mine's energy needs, reduce carbon emissions by 25,000 tonnes annually, and create over 100 jobs during

Africa REN has commissioned the large-scale solar and battery storage project to address Senegal's grid constraints. Africa REN is working in partnership with Senelec, Senegal's national electricity company to provide much-needed stability to the local grid to reduce power outages.

The project will provide clean, reliable energy for 235,000 people in Senegal. Largest photovoltaic with added battery energy storage systems (BESS) project in West Africa, accelerating the ???
