"We look forward to creating more local jobs as we expand our services for homeowners and businesses," said Jim Cahill, SolarCity's regional vice president of operations for Southern California. "Riverside alone has 277 sunny days per year, which is nearly 40 percent more than the national average, so solar power production in the Inland Empire

California is one of the sunniest states in the country, with an average of 284 sunny days each year and between 5 and 7.5 peak sun hours each day. The more sunlight available to the panels, the more electricity the system can produce. But, all this sun also leads to hotter temperatures. This may lead to increased energy usage to keep homes

3 years ago for SolarCity in Visalia, CA. Wow, unbelievable the calls, emails, online requests one must go through to get a UCC Filing Statement released. Every time I have to contact Solar City/Tesla for one, it's like the first time they've ever heard of it. Completely inefficient. You fill out all of the online info
