

Could a solar company go bankrupt?

More bankruptcies may be on the horizon, too - in California alone, a whopping 75% of solar companies are now under financial duress, according to research from solar warranty provider Solar Insure. For consumers with solar panels, a solar provider's bankruptcy is more than just a headline; it can be the start of a huge headache.

How did SunPower's bankruptcy affect the solar industry?

Even before the bankruptcy filing, SunPower ceased solar lease and PPA offerings, creating problems that reverberated through the industry. The effects trickled down to dealers and installers like Renova Energy, a major SunPower partner that services the Nevada and California markets and maintains an excellent 4.9-star rating on SolarReviews.

Can a solar installer call a manufacturer if a company goes bankrupt?

So as long as the solar installer and manufacturer aren't the same company, you should still be able to call the manufacturer for warranted service on the panels. If your installer is also the manufacturer of the solar panels, bankruptcy could affect your manufacturer warranty.

Can a solar company survive a Chapter 11 bankruptcy?

Not all companies survive Chapter 11 bankruptcies, though. Action you can take now: If your solar company files bankruptcy or another company acquires it, you should receive a letter in the mail telling you about the situation and if it will affect your contract.
