

Which is the best solar company in Oklahoma?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Oklahoma are IntegrateSun, LLC, Starry Solar, ESD Solar, Solar Power of Oklahoma, and EnergyONE Renewables. There are more solar companies in Oklahoma, but these five are the most preferred based on consumer reviews.

Which solar company should I hire in Oklahoma?

When choosing a solar company in Oklahoma, look for one with owners who understand the importance of being there for the next 25 years to fix any issues that may arise. We recommend the following top companies: Shine Solar, based in Rogers, AR.

Does solar increase property value in Oklahoma?

Unfortunately, Oklahoma doesn't offer additional solar incentives, such as property tax exemptions. While installing solar boosts home value, it leads to higher property taxes. If you're considering selling your solar-powered home, the increased property value will result in a higher selling price.

Do solar companies get bumped down in OK?

Companies that only accept cash and third-party solar loans will get bumped down, while those that have low-APR, in-house loan options and access to leases and PPAs get bumped up. Since the solar industry is only now getting established in OK, many of the companies within the state have little to no experience.

Below are some the criteria we examined specifically for Oklahoma solar companies Brand reputation and certifications (20%): We take each company's Better Business Bureau (BBB) score into consideration, as well as how long the installer has been in business (at least 5 years is required, 10 preferred) and what type of solar certifications it holds.
