How do I choose a Staten Island solar company?

Take the time to review each company and get quotes from all before arranging your solar panel installation. Search for Staten Island solar companies that have at least 3.5 out of 5 stars based on customer critiques on Google Reviews and comparable sites.

How much does solar cost in Staten Island?

The average price per watt of solar power in Staten Island, NY is \$3.48/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$22,700 for a 9.31 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Are solar panels a good investment in Staten Island?

Even though solar panels are a big upfront investment, you can cut your energy bills over the long run. According to the U.S. Energy Information Administration (EIA), transitioning to solar energy enables Staten Island homeowners to save \$1,300 on average each year. Many solar companies provide different services.

Does Staten Island offer solar incentives?

Homeowners in Staten Island can qualify for several solar incentives. Some are available across the state for all New York residents, and others are determined by your utility company, municipality and city. According to the DSIRE, here are the solar incentives offered to New York residents: Incentive rates step down over time as MW goals are met.

How does going solar impact the environment in Staten Island?

Going solar can have a meaningful effect on the environment. Many homeowners might be wondering how much exactly they can impact the environment by switching to solar in Staten Island, though. One thing that can drastically shape your carbon footprint is how long your commute is and how much you drive overall.
