

Should you rent out your roof space for a solar system?

Renting out your own roof space for the operation of a solar system offers the owner a lucrative secondary income stream. We operate the system and feed the electricity into the grid receiving a remuneration for the sale of energy. The roof owner can benefit by renting out his roof space without having to invest himself.

Do you pay upfront for a solar system?

We pay attractive prices for your roof area in order to install a solar system there. You will receive a high upfront payment or an annual roof rental for the specified duration of at least 20 years. Why is a first-time easement placed in the property register?

Does MSE own a solar park?

As an owner of property, you are able to help provide a precious contribution to the energy transition and also profit from an annual lease payment. MSE already owns numerous solar parks in Germany and the rest of Europe. You have no extra expenses and receive a stable income stream. How does the roof rental scheme work?

What happens if you buy a house with rent-a-roof solar panels? Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage provider could be unwilling to lend.
