Can a solar farm be built in Clark County?

LOUISVILLE, Ky. (WAVE) - At a meeting Wednesday night, the Clark County Board of Zoning Appeals denied a permit that would have allowed thousands of acres of farmland to be used to create a solar farm throughout the county. The proposed solar farm would have included 73 parcels of land owned by 53 farmers.

Should Clark County have a solar ordinance?

Clark County currently has no such rule in place, and Weyer said at least two wind energy companies have explored options in the county in the past few years and recent interest has been shown in solar farms. The ordinance will be drafted and brought back to the full board for future consideration.

Does NV Energy own Gemini Solar?

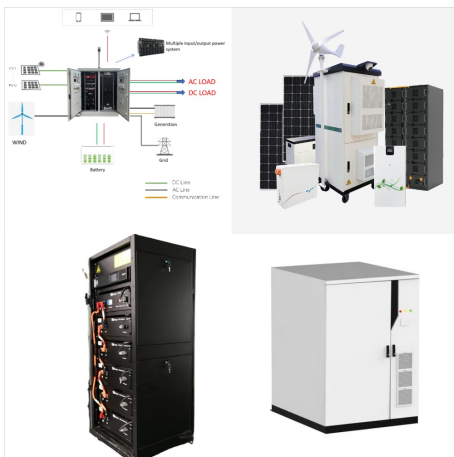

NV Energy, a subsidiary of Berkshire Hathaway Energy, signed a 25-year power purchase agreement (PPA) for the 690MW Gemini solar project in June 2019. The PPA was approved by the Public Utilities Commission of Nevada (PUCN) in December 2019. NV Energy serves more than 1.2 million people throughout Nevada.

Will Gemini be the biggest solar power facility in the US?

It is expected to be the biggest solar power facility in the US, as well as one of the biggest renewable energy projects of its kind globally. The Gemini project is proposed to be developed and operated by Solar Partners XI, a wholly-owned subsidiary of Valley of Fire, which acquired it from BrightSource Energy in April 2017.
