

How many solar companies are there in Indiana?

There are 91 solar companies in Indiana, including 26 installers. CNET has reviewed the best national solar installers; here are some to consider. If you're looking for top-of-the-line solar panels, SunPower is your best choice. But don't write it off if you're looking for a less flashy installation that will get the job done.

Who is the best solar installer in Indiana?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Indiana are SunSent Solar, Bone Dry Solar, Jefferson Electric LLC, MPI Solar, and Accutek Solar. How many solar companies are in Indiana? Should you choose a local or national solar installer?

How do I choose a solar company in Indiana?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. Indiana licensing requirements differ by locality.

How much do solar panels cost in Indiana?

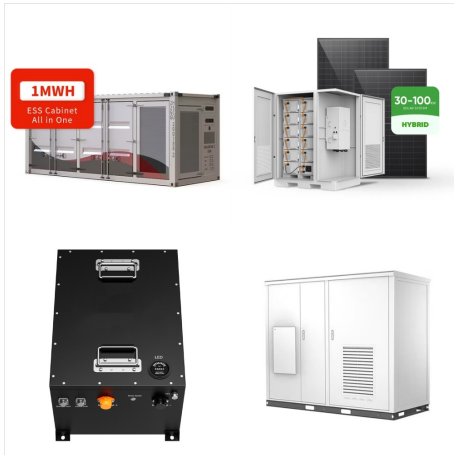

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Indiana homeowner needs a 11.41 kW solar panel system to cover their electricity needs, which comes out to \$37,429 before incentives. Prices range from \$31,815 to \$43,043, but after the federal tax credit, that drops by 30%.

How efficient are solar panels in Indiana?

Companies like Renogy and Grape Solar that are available to DIYers often have efficiency ratings between 15% and 20%, whereas the top brands for professional installations can top 22%. As mentioned above, solar panel efficiency is crucial in a place like Indiana because the available sunlight is significantly lower than it is in most other states.

How much is a solar system worth in Indiana?

Zillow reports that homes with solar energy systems sell for an average of 4.1% more than those without them. With the average home value in Indiana around \$244,000, according to Zillow, then a similar home might gain about \$10,000 in value. Are solar panels worth it in Indiana?
