

Who is the best solar company in Minnesota?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Minnesota are All Energy Solar, Centauri Systems, Wolf River Electric, Sisu Solar, and Freedom Solar Pros. How many solar companies are in Minnesota?

Does Minnesota have a solar energy program?

When you use links on our website, we may earn a fee. Clean energy is popular in Minnesota: As of 2024, the state ranks 16th for solar installations in the U.S., according to the Solar Energy Industries Association (SEIA), and it has the second-highest number of renewable energy programs in the country.

What are the best Solar Lease companies in Minnesota?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Minnesota.

Is Minnesota a good place to install solar panels?

Minnesota gets below-average days of sunlight each year, so it is not always the best location for solar panels. In the summertime, energy production will not be much of an issue. But in the winter when the days are significantly shorter, you might not produce enough energy to completely offset your energy bill.

How do I choose a solar installation company in Minnesota?

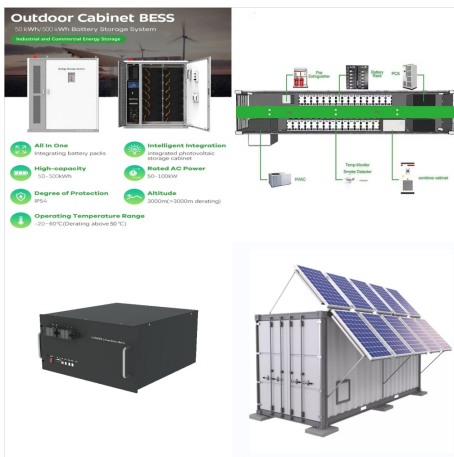

Minnesota sits well above the equator--meaning the hours of sunlight vary dramatically between seasons. When choosing a solar installation company in the state, ensure it has a product selection that includes highly-efficient panels and components to make the most of the often elusive Minnesota sunshine.

Are community solar programs worth it in Minnesota?

Minnesota has excellent community solar programs -- the state has reached 841 megawatts of operational capacity as of August 2022. To date, the community solar programs have saved Xcel Energy customers in Minnesota more than \$2.2 million in energy costs. ¹ We believe these programs are worth it for anyone interested in saving money via solar energy.
