

Who is solar in Spain?

Here at Solar in Spain we have been offering energy solutions since 1999. We have a strong combination of experience and knowledge (MSc in renewable Energy) in the sector and a long history of business management. We cover the coast from Valencia to Gibraltar from our offices in Pedreguer on the Costa Blanca and in Marbella on the Costa del Sol.

Can I get subsidies for solar panels in Spain?

Yes, it is possible to obtain subsidies in Spain for the installation of solar panels in individuals. The Spanish government offers various subsidies and incentives to promote the production and use of renewable energy sources, including solar panels.

Why should you choose solar in Spain?

We understand that solar energy systems when installed professionally will be an elegant addition to your property. Solar in Spain works closely with its clients to ensure that the right system is supplied at the right price. Whatever your renewable energy requirement may be, we have the solution.

How can I generate my own electricity in Spain?

Generate your own electricity in Spain with solar power. A solar panel installation provides a fantastic return on investment and, with the savings you will make on your electricity bill, your solar panels will pay for themselves in just a few years! At Mariposa Energy we take care of the whole process for you.

Do I need a permit to install solar panels in Spain?

Yes, the installation of solar panels at private homes in Spain generally requires a permit. However, exact permitting requirements may vary depending on the region and municipality where the installation takes place.

What services does a solar company offer?

Our services encompass the supply, installation, maintenance, and servicing of a wide range of high-quality, eco-friendly products. Among our offerings, the most popular include solar panel systems, solar battery storage, heat pump systems, and electric vehicle (EV) car chargers.

We pride ourselves on offering exceptional customer service and experience, whilst offering professional advice, based on requirements. If you live in Malaga or Cadiz and you would like to book an appointment to speak to one ???

Spanish oil and gas major Repsol and telecommunications firm Telefonica have formed a joint venture (JV) to provide solar installs and energy services across different target markets in Spain.

As we've written before, consumers in the Age of Amazon are characterized by the need for on-demand service, hyper-personalization, and the dynamic evolution of services being offered to them. Adding to the challenge for solar companies, customers also naturally bring emotion and irrationality into the buying experience, contrary to what we'd like to think.

Several customer success stories testify to their efficiency and satisfactory service in various locations, including Alcobendas, Barcelona, and Madrid. Otovo. Offering solar installations without any initial investment, Otovo guarantees at least 25 years of clean, sellable, or storable energy ???
