

What is a SolarEdge home wave inverter?

Powered by award-winning technology, the SolarEdge Home Wave Inverter manages PV production, on-grid battery storage, EV charging and smart energy devices. As the "backbone" of SolarEdge Home, install the SolarEdge Home Wave inverter and our Power Optimizers with our batteries, EV Charger and our growing family of smart energy devices, to:

How safe is the SolarEdge home wave inverter?

The SolarEdge Home Wave inverter includes built-in safety features designed to protect your solar installations by reducing risks associated with electrocution and fire: Save installation time and reduce messy wiring with: Configure inverters from your smartphone

Which SolarEdge inverter is right for You?

Their inverters feature power optimisers that help maximise energy production and minimise shading issues. The SolarEdge HD-Wave inverter is a popular choice for both residential and commercial installations. It offers high efficiency, small size, and advanced safety features.

Who makes the best solar inverter in South Africa?

Microcare Solar Systems is another leading solar inverter manufacturer in South Africa. Known for their innovative technology and customer-centric approach, Microcare has been at the forefront of the solar revolution in the country.

What is SolarEdge Home Hub?

SolarEdge Home Hub is the latest innovation from SolarEdge for your Home. Superior efficiency paired with Smart Home Features ensure success.

Does SolarEdge have smart home accessories?

SolarEdge offers their own and integrated Smart Home Accessories to give you peace of mind during Power Outages. Once configured, the SolarEdge Home Hub will switch off unimportant appliances to conserve your Battery Capacity until the grid returns.

SOLAR EDGE INVERTERS SOUTH AFRICA

Produce Power. Once the inverter and power optimizer pair, the system start up process begins. The power optimizers start producing power, and the inverter starts converting power from DC to AC

SOLAR EDGE INVERTERS SOUTH AFRICA

When working with SolarEdge inverters, Power Optimizers let you increase your design possibilities by automatically maintaining a fixed string voltage. This enables even greater flexibility and minimizes time onsite with fewer, longer strings (up to 23kW per string) and strings of different lengths.

SOLAR EDGE INVERTERS SOUTH AFRICA

The optimised System from SolarEdge allows Home Owners and Businesses in Cape Town and South Africa to get the maximum benefit for their Equipment. 25 years warranty on Power Optimisers; 12 years warranty on Inverters (can be ???)

Solar Edge Inverters are on the pricier side so expect to pay around 20-40% higher cost on average than other high performing and highly rated inverters. Keep in mind that inverter costs generally only run between 10-20% of your total system so it can depend greatly on the rest of your set up including your Solar Panels and Solar Battery.

SolarEdge Home is the perfect solution for your home solar system. With our DC optimised technology, you harvest more energy from your solar panels and store more energy in your battery to power appliances, EVs, and provide critical backup during outages. Watch the video to see why homeowners like Bryan Habana choose SolarEdge Home.
