Solar Hub Energy is a provider of solar power solutions, specializing in the installation of grid-tie and off-grid solar systems. Get everything you need to know about solar power, including how it works, what it can do for you, and the ROI.

Energy Hub allows for a DC-coupled battery, meaning you can take energy from your solar panels and store it directly in your battery, avoiding first inverting that solar power to AC electricity. This means higher efficiency for your solar plus storage system, and the option to oversize your solar panel system knowing you can store any excess
