

However, last year they returned the compensation for solar power generation and halved the solar energy tax. Now investments in solar are ramping up. Curaçao gets 30% of its energy from renewable sources already. This was done because the electricity network cannot handle the current need at times. If more people generate solar, this means

Solar panels are a popular choice for homeowners who want to take advantage of the solar energy. Solar system installation is an important part of the process, as it provides the solar cells with power and makes sure they are working properly.
