

Solar Energy Manipulation: Majesdanians are able to absorb solar radiation and convert it into a unique energy type which they can manipulate for various uses. Their power level is directly related to their exposure to sunlight. It is possible this is absorption of some sort of cosmic energy. This solar energy is stored in every cell of their

As high-formed solar energy beings/suns, users are or can change into mostly physical beings, with the energy flowing through their being, fortifying their cells, bones and muscles. Their power is mostly focused to their bodies and while they gain some amount of energy-attacks, the changes and applications are mostly internal.

Solar energy conversion originated from Jan Ingenhousz's hypothesis in 1779 (Magiels, 2007). Jan based this concept on Joseph Priestley's cylinder created in 1771 which was inspired by photosynthesis, a process used to sustain life on earth for 3.5 billion years (Matthews, 2009). The first photovoltaic observation was conducted in 1839 by Becquerel through a?
