

Does Jordan have a solar energy policy?

Jordan has implemented several policies to encourage the growth of solar energy in the country. In 2012, the government introduced a feed-in tariff system that offers a fixed rate for solar energy producers to sell their electricity to the grid.

How does Jordan support the development of solar energy?

In addition, Jordan has signed several agreements with international organizations and foreign governments to support the development of its solar energy sector. For example, in 2018, Jordan signed an agreement with the International Finance Corporation (IFC) to support the development of a 200 MW solar project in the country.

What solar projects are being built in Jordan?

Jordan has several large-scale solar projects under construction or in the planning stages, including the 800 MW Al-Dhafra project, which is being developed by the Abu Dhabi National Energy Company (TAQA) and the 400 MW Al-Risha project, which is being developed by Saudi Arabia's ACWA Power.

We supply complete turn -key solar solutions and systems to the MEA region with highest technical support and after sales service. Our main products and solutions include solar street lighting systems, solar pumping systems, solar ???

Our solutions allow enterprises to minimize their commercial electricity consumption considerably. Apart from regular maintenance and servicing, our services also enable customers to have access to free power from solar going forward.

MASE is an award-winning solar energy integrator, operator and asset manager with over 100 MWp of operating or underway solar assets under care. The company was established by Arabia Group in 2013 to lead clean energy development in Jordan and the MENA+GCC region.

Our solutions allow enterprises to minimize their commercial electricity consumption considerably. Apart from regular maintenance and servicing, our services also enable customers to have ???

Jordan Energy is a solar developer that seeks to Empower Progress through sustainable energy. We provide best-in-class, solar solutions that enable our customers to harness the power of the sun. Reach out for a free solar assessment based on your energy usage today.

We supply complete turn -key solar solutions and systems to the MEA region with highest technical support and after sales service. Our main products and solutions include solar street lighting systems, solar pumping systems, solar off-grid systems, solar on-grid systems, and solar PV-diesel systems.
