A solar-powered generator is a system that converts sunlight into electricity using attached solar photovoltaic (PV) panels. Unlike traditional generators that run on fossil fuels, solar generators produce clean, renewable energy without emitting greenhouse gases.

Five common Products for solar powered irrigation systems in Kenya. Solar-Powered Water Pumps: In the absence of a reliable electricity supply, farmers have to resort to diesel-based pump generators which come with high operating costs, and pollution. Therefore renewable energy options, and in particular solar power, seem a very promising
