

Should you buy a solar geyser in Zimbabwe?

Water heating can make up as much as 10% of your bill. And with the persistent loadshedding in Zimbabwe, getting solar water heating guarantees you don't have to heat water outside or take a cold bath in winter. What type of geyser should you buy? There are different solar geysers to choose from. Most people buy an evacuated tube collector.

Where can I get a solar geyser in South Africa?

Where can I buy a solar geyser in Kosh?

Solar Guru is a leading SA solar geyser supplier in the Kosh area. You can visit us at our Klerksdorp office for all your solar geyser requirements. Solar Guru's Klerksdorp branch specializes in SA low-pressure solar geyser products.

Where are Solar geysers made?

Solar geysers are manufactured at the SunTank factory in Pretoria. It is the most technologically advanced speciality facility in South Africa for making entire complete solar geyser systems. Since the turn of the century, our engineering and production teams have mastered the craft of fabricating geysers that last longer and perform better.

What are the different types of geysers?

We specialise in two types: Gravity geysers - which allow heated water out by gravity. Pressure geysers work such that inlet water pressure is the same pressure that they provide heater water with. So if no inlet water pressure, no heated water comes out. We provide solar power solutions for homes and business.

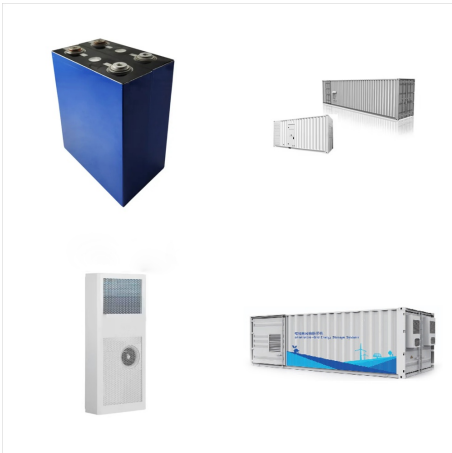

Who is cool solar Africa?

Cool Solar Africa is a leading solar systems design and installation company that specialises in large-scale solar systems installation for agricultural, industrial, and household applications. Are you looking to setup a
