megawatt-hour battery storage ???

Affordability of Housing. Living in St Kitts and Nevis,
housing affordability is a major concern for
residents. The cost of housing in this Caribbean
country can be quite high, especially in popular
areas such as Basseterre and Frigate Bay. The
limited availability of land and the high demand for
housing contribute to the high prices.

Ground has been broken on the St Kitts microgrid
while negotiations and developments continue with
the Nevis Geothermal project. The St Kitts facility to
be comprised of 37.5MW solar PV and a
14.8MW/45.7MWh lithium-ion battery energy
storage system is a major development for the
nation and a landmark for the region.
