

How much money does Croatia need to install solar power in 2022?

The Croatian government has allocated EUR60 million (\$65.6 million) in subsidies for businesses to install 80 MW of renewables and 20 MWh of batteries. Croatia may only install 2.5 MW of PV in 2022.

How many MW of PV will Croatia install in 2022?

Croatia may only install 2.5 MW of PV in 2022. The Croatian government is providing EUR60 million for companies in the processing industry and heating sector to install front-of-the-meter and behind-the-meter PV arrays, biomass projects, biogas-fired power plants, and battery storage installations.

How much does a project cost in Croatia?

The Croatian Ministry of Economy and Sustainable Development said the goal is for companies to produce energy for self-consumption, which should bring down energy costs. Companies can secure between EUR100,000 and EUR2 million per project. Developers can apply for multiple projects, with the maximum amount per single applicant capped at EUR4 million.

So we devised the most innovative mode of payment for solar called Pay While You Use repayment plan. The idea is to match your weekly repayments for your solar system with your weekly savings on your supposed generator expense. It offers up to 70% finance, while you are required to pay only 30% upfront payments with no Interest charged.
