The Cayman Islands Airport Authority was in search for a way to enhance their customer experience by providing a kiosk for online access and for making international calls. Kiosk Project Details: Advanced Kiosks worked with the airport authority to provide a system for travelers to make calls and access the internet internationally.

Environmental impact: Our technology is powered by solar energy, from the electronics on the kiosk and the phone charging. Due to challenges with energy access in Africa, solar energy is the most reliable energy source in Africa. Social & economic impact: Our solar kiosk provides micro entrepreneurship opportunities in the communities we serve.
