

What is New Zealand's largest solar farm?

(Source: Supplied) Plans have been revealed for what's believed to be New Zealand's largest solar farm. The joint British-New Zealand venture has consent to build the 182ha Tauhei Solar Farm near Te Aroha in Waikato. Expected to start construction this year, it aims to provide power for the equivalent of 35,000 homes.

Will New Zealand's solar farms feed into the power grid?

These first solar farms, and the ones across New Zealand that follow, will feed into the power grid and then into thousands of homes and businesses across Aotearoa. We're taking New Zealand's solar production to a new scale, reliably and efficiently feeding electricity into local networks and the national grid.

How many solar panels can a New Zealand solar farm produce?

Subject to obtaining all necessary consents and approvals, the solar farm's approximately 330,000 solar panels would generate more than 270 GWh per year, enough renewable electricity to supply the equivalent of approximately 35,000 New Zealand homes.
