

Will Mali achieve a 15% solar penetration rate by 2030?

Hamathe Mane, Principal Renewable Energy Officer at the African Development Bank, explains, "in the renewable energy sector in Mali, we currently have a penetration rate covering 3% of the demand, which is relatively low. Through this Plan, we aim to achieve a solar penetration rate of 15% by 2030."

What does Mali's energy plan include?

Moussa Ombotimbe, Technical Advisor in charge of Energy at the Ministry of Mines, Energy, and Water of the Republic of Mali, states that the "plan includes creating solar power plants, the inclusion of transmission lines, the establishment of mini-grids, and capacity building, making it comprehensive."

Is Mali a renewable country?

Like most West African countries, Mali relies heavily on fossil fuels but has significant potential in solar and wind energy. Mali's strategy is oriented towards fostering the development of renewables even though their share, except for hydro, remains rather low.

Is Mali ready for a green-energy future?

Mali is ripe for the steady transition from its fossil fuels-laden past to a cleaner green-energy future for its socio-economic growth according to its investment plan. Like most West African countries, Mali relies heavily on fossil fuels but has significant potential in solar and wind energy.

Can solar power be installed on the Malian electrical grid by 2035?

The study identified a potential of 1,400 MW of solar capacity to be installed by 2035 on the Malian electrical grid, requiring an investment of EUR1.146 billion for the production system, EUR259 million for the storage system, and EUR102 million for the development and reinforcement of the electrical grids.

What is Mali's investment plan?

Mali's Investment Plan was approved in November 2023 using a modular approach with an initial allocation of \$32.6 million to be shared between the African Development Bank and the World Bank, and a second allocation of \$20 million to be paid out subject to the availability of additional funds, bringing the total allocation to \$52.6 million.
