

Is SolarMax a reliable company?

SolarMax is a reliable company with a variety of solar panel offerings. They educate their customers on the benefits of solar through their lunch and learn program. SolarMax's five-step installation process and in-house financing options make them a good choice for customers who are new to solar energy.

Which solar panels does SolarMax sell?

SolarMax sells four different solar panels: its own SolarMax SMX solar panels, as well as LG, QCELL, and Panasonic solar panels. SolarMax offers SolarMax SMX solar panels. In addition, it sells LG panels, which are known for their high-powered output and enhanced performance warranty, and QCELL and Panasonic solar panels.

Does SolarMax offer financing options?

SolarMax offers financing terms from 10 to 20 years with rates as low as 2.99% APR. SolarMax partners with Sunrun to provide a Power Purchasing Agreement (PPA), allowing customers to lease their solar panels and pay based on the solar electricity generated.

Does SolarMax offer a Third-Party PPA?

SolarMax offers a Third-Party Power Purchasing Agreement (PPA) through its partnership with Sunrun. This allows customers to lease their solar panels and pay based on the solar electricity generated. SolarMax offers four different solar panels, including its own SolarMax SMX solar panels.

How much does a solar system cost?

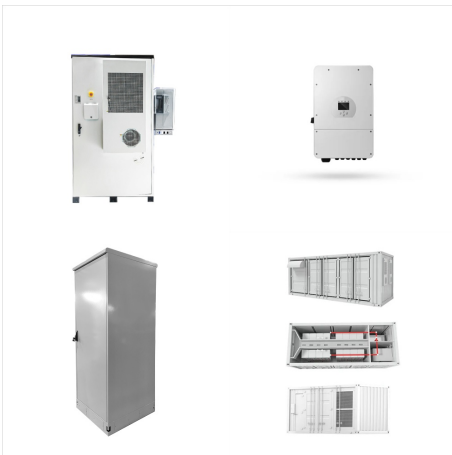

Most people will need to spend between \$16,500 and \$21,000 for solar panels, with the national average solar installation costing about \$19,000. Most of the time, you'll see solar system costs listed as the cost per watt of solar installed so you can easily compare prices between quotes for different system sizes.

Does SolarMax offer a commercial battery solution?

SolarMax offers a 10 kilowatt-hour (kWh) home battery for residential use. Note: Commercial solar energy batteries from SolarMax require more customization to meet the specific energy storage needs of businesses.
